**(Department of Heavy Engineering)**

*New Delhi, the 16th April 1964*

#### **RESOLUTION**

*Constitution of a Panel of the Structural Fabricating Industry*

No. 16(10)/64-E.I.(M).—Government have reviewed the progress and problems of the structural fabricating industry. While, on the one hand, the creation of new capacity has been rather slow, on the other, the existing capacity, particularly for heavy structurals, has not been fully utilized. The under-utilization of the existing capacity has been due some times to delays in the supply of steel and some times for want of relatively small quantities of matching steel. Under-utilization of existing capacity in turn has been responsible for holding up the creation of new capacity. Government have felt that for the rapid development of the structural fabricating industry, as well as for meeting the essential requirements of steel structurals of such priority projects as Steel Plants, Rail and

Road Bridges, Irrigation and Power Projects and Heavy Industries, it is necessary that the problems of the industry should be constantly reviewed by an expert body consisting of representatives of the industry, users and the Government. Government have accordingly decided to constitute a Panel for the structural fabricating industry.

The terms of reference of the Panel will be as follows :—

- (i) To examine capacities and work load of existing fabricating units in the country, so as to ensure continuity of orders and obtain maximum production;
- (ii) to ensure that fabricated steel work required for priority jobs like expansion of steel plants, rail & road bridges, irrigation & power projects and heavy industries are supplied according to the delivery schedule laid down by the projects;
- (iii) to coordinate supplies of steel for priority jobs;
- (iv) devise ways and means for provision of matching steel to accelerate the utilisation of the present accumulated stocks of steel with the structural fabricating industry;
- (v) to determine and recommend issue of import licences for steel, spares for machinery and balancing equipment for the structural fabricating industry;
- (vi) to advise Government generally about the policy in regard to development of the industry through expansion of the existing units and licensing of new ones;
- (vii) to recommend to Government the setting up of such ancillary units as may be necessary for fasteners, electrodes, castings, forgings, etc.

The Panel will consist of the following :—

*Chairman*

- (1) Iron & Steel Controller, Calcutta.

*Vice-Chairman*

- (2) Mr. C. E. Cargin, Director, Jessop & Co. Ltd., Calcutta.
- (3) Shri J. S. Mathur, Deputy Director General of Supplies & Disposals, Directorate General of Supplies and Disposals, New Delhi.
- (4) A representative of the Railway Board.
- (5) Shri K. K. Mitra, General Manager, M/s. BBJ Construction Co., 12 Mission Row, Calcutta.
- (6) Mr. J. R. Armstrong, Managing Director, M/s. Richardson and Cruddas Ltd., Byculla Iron Works, Bombay-8.

New Delhi, the 2nd May, 1964.

**RESOLUTION**

No. 10(68)/59-L. I (1)—The Committee on Rice Bran Oil Solvent Extraction Industry which was set up by the Government of India in February, 1960 with the following terms of reference, submitted its report in December, 1961:—

- (i) To review the present position of the industry and the availability of rice bran in the different regions in the country.
- (ii) To formulate a plan for establishment of extraction units for recovering rice bran oil, suggest suitable locations for the new units and the arrangements necessary for collection of rice bran.
- (iii) To suggest incentives for developing extraction of rice bran oil in the country.
- (iv) To indicate measures for the fabrication of extraction plants of economical size and the total capital requirements for this purpose.

2. The Committee's recommendations/suggestions/ observations and Government's decisions thereon are as follows:—

**RECOMMENDATIONS/OBSERVATIONS/  
SUGGESTIONS**

- (1) Initially half the quantity of 3 lakhs tons of rice bran that goes to the market could be processed to yield about 20,000 tons of oil. This would mean extraction of hardly 15% of 900,000 tons of rice bran which is the estimated production in the country.
- (2) Rice bran extraction plants should preferably be located within a radius of 50 miles from the concentration of rice mills in order to ensure quick and economic transport of the raw material.
- (3) There should be hydraulic pressing of rice bran and deoiled bran to save storage space and cost of transport.
- (4) The organisation of Rice Bran Oil Industry should be on co-operative lines particularly by a group of rice mills.
- (5) The continuous type of rice bran oil plant of capacities ranging from 25 to 50 tons per day of 24 hours in terms of rice bran would be economical units. Smaller batch type plants may also be installed in areas where the availability of rice bran is limited.

**GOVERNMENT'S DECISION**

Government have taken note of the observation.

Government accept the recommendation and bring it to the notice of the State Govts., for implementation by them as far as possible.

Government accept the recommendation and draw attention of the industry to it.

Government agree to the organisation of the rice bran industry on co-operative lines and would give preference wherever growers' co-operatives are prepared to organise a co-operative society but if such co-operatives are not forthcoming, there would be no objection to joint stock companies of rice mills taking up the Industry.

Government accept the recommendation in so far as it relates to installation of units of 25 to 50 tons capacities in the surplus areas. Installation of smaller batch type plants in areas where availability of rice bran is limited should be discouraged.

- (7) Shri G. Srirangachary, General Manager, M/s. Southern Structural Ltd., 'GDC' Building, Cathedral Road, Madras.
- (8) Dr. C. J. Shah, Industrial Adviser, Directorate General of Technical Development, New Delhi.
- (9) Shri V. Subramaniam, Chief Sales Manager, Hindustan Steel Ltd.
- (10) Shri A. H. Sethna, Sales Manager, Tata Iron & Steel Co. Ltd.
- (11) A representative of Indian Iron and Steel Co. Ltd., Calcutta.
- (12) Shri Harbans Singh, Deputy Secretary, Department of Heavy Engineering, New Delhi.

*Member-Secretary*

- (13) Shri T. R. Subramaniam, Jt. Director (Iron & Steel) and *Ex-officio* Deputy Iron and Steel Controller.

The Panel will meet as often as necessary and at such places as may be decided by the Chairman. It will submit periodical reports to the Government of India about the matters handled by it.

**ORDER**

ORDERED that a copy of the resolution be communicated to all concerned.

ORDERED also that a copy of the resolution be published in the Gazette of India.

N. SUBRAHMANYAM, Addl. Secy.

**MINISTRY OF INDUSTRY**

New Delhi, the 1st May 1964

**RESOLUTION**

No. 9(2)/62-Salt.—In partial modification of this Ministry's Resolution of even number, dated 9th April 1963 the Government of India have decided to appoint Shri D. S. Seth of Tata Chemicals Limited, Bombay House, Fort, Bombay, as a Member of the Central Advisory Board in the place of late Shri M. B. Bhagvat, C/o M/s. Tata Chemicals Limited, Bombay.

**ORDER**

ORDERED that this Resolution be communicated to all the State Governments, all Ministries of the Government of India, Planning Commission and Prime Minister's Secretariat.

2. ORDERED also that this Resolution be published in the Gazette of India, Part I, Section 1,

H. K. BANSAL, Under Secy.

New Delhi, the 2nd May, 1964.

**RESOLUTION**

No. 10(68)/59-L. I (1)—The Committee on Rice Bran Oil Solvent Extraction Industry which was set up by the Government of India in February, 1960 with the following terms of reference, submitted its report in December, 1961:—

- (i) To review the present position of the industry and the availability of rice bran in the different regions in the country.

- (iii) To suggest incentives for developing extraction of rice bran oil in the country.
- (iv) To indicate measures for the fabrication of extraction plants of economical size and the total capital requirements for this purpose.

2. The Committee's recommendations/suggestions/ observations and Government's decisions thereon are as follows:—

**RECOMMENDATIONS/OBSERVATIONS/  
SUGGESTIONS**

**GOVERNMENT'S DECISION**

Government have taken note of the observation.

Government accept the recommendation and bring it to the notice of the State Govts., for implementation by them as far as possible.

Government accept the recommendation and draw attention of the industry to it.

Government agree to the organisation of the rice bran industry on co-operative lines and would give preference wherever growers' co-operatives are prepared to organise a co-operative society but if such co-operatives are not forthcoming, there would be no objection to joint stock companies of rice mills taking up the Industry.

Government accept the recommendation in so far as it relates to installation of units of 25 to 50 tons capacities in the surplus areas. Installation of smaller batch type plants in areas where availability of rice bran is limited should be discouraged.

RECOMMENDATIONS/OBSERVATIONS SUGGESTIONS—contd.		GOVERNMENT'S/DECISION—contd.
(6)	The existing hullers should be modernized into sheller type of rice mills without substantially increasing the 'overall' regional milling capacity.	Government accept the recommendation and would take steps to implement it as far as possible. The conversion of the existing hullers into shellers would, however, be gradual and in the initial stages restricted only to bigger size units.
(7)	The bran obtained from hullers could be improved to some extent by sieving before and after extraction.	Government have taken note of the observation and draw the attention of the Industry to it.
(8) (i)	Rice bran oil mills should set up separators to remove broken rice, rice germs, stones and dirt from the bran and also instal specially designed pneumatic separators to remove the husk from the bran.	Government accept the recommendation and draw the attention of the industry to it.
(ii)	Suitable designs of such separators should be evolved by National Laboratories/Oil Technological Research Institutes in the country.	Government accept the recommendation and request the National Laboratories/Oil Technological Research Institutes in the country to take the necessary action in the matter.
(9) (i)	The bran should be stabilized by heat treatment and drying to 2 to 3% moisture content soon after its separation from rice. The stabilising equipment should be set up in large sheller type of rice mills or alternatively in rice bran extraction plants.	Government accept the recommendation and draw attention of the industry to it.
(ii)	It would be advantageous if suitable type of equipment for the drying and stabilisation of rice bran could be designed by the National Laboratories or the Oil Technological Research Institutes.	Government accept the recommendation and request the National Laboratories/Oil Technological Research Institutes to take the necessary action in the matter.
(10)	The investigational work on the refining, bleaching, deodorisation and hydrogenation of the oil should be carried out in the National Laboratories/Oil Technological Research Institutes.	Do.
(11)	The rice bran oil mills may be permitted to import suitable continuous plants to refine the oil.	Government have taken note of the suggestion and steps would be taken to implement it as far as possible.
(12)	In the initial stage of development of the industry, rice bran oil is likely to have high free fatty acids and, therefore, the oil should be used in the unrefined state for industrial purposes e.g. manufacture of soaps and as a raw material for fat splitting and fatty acid distillation along with other oils.	Government accept the recommendation and drawn the attention of the industry to it.
(13)	Wax should be recovered from the extracted oil by centrifuging it.	Do.
(14)	Rice Bran Oil need not be considered for export till refined oil of standard quality is produced. Standards should immediately be framed by the I.S.I. for rice bran oil and de-oiled rice bran (particularly for export purposes).	Government have taken note of the recommendation and request the I.S.I. to take the necessary action expeditiously.
(15)	It is advantageous to use extracted rice bran as cattle feed and so the use of deoiled rice bran as cattle feed should be popularised.	Since opinions vary with regard to the nutritive value of deoiled rice bran as cattle feed further research in this behalf is necessary.
(16)	Rice bran and cotton seed should be placed in the same category for railway freight to enable extraction plants to transport deoiled brane to different places more economically than at present.	Government accept the recommendation.
(17)	The present policy of exemption of excise duty on rice bran oil followed by Government of India should continue for a period of 5 years and the position reviewed thereafter.	Government would give due consideration to the recommendation.

## ORDER

ORDERED that a copy of the Resolution be communicated to all concerned and that it may be published in the Gazette of India.

### RESOLUTION

No. F. 78(42)/63-A.I.—The development of hill areas in the country has not received adequate attention in the past. At the Hill Development Seminar held in April 1963, the urgent need for integrated development of hill areas was stressed and a recommendation was made that an appropriate high-powered agency should be set up by the Government of India, in consultation with the State Governments concerned, for this purpose. This recommendation was examined and after consultation with the State Governments concerned, the Government of India have decided to constitute under the Chairmanship of the Union Minister for Agriculture a Committee, called the Central Hill Development Advisory Committee, to advise Government on matters relating to the development of hill areas, particularly in the agriculture and allied fields.

The Committee shall consist of the following members :

#### *Chairman*

1. Union Minister for Agriculture.

#### *Members*

2. Union Minister for Community Development and Cooperation, Government of India.
  3. Minister of State in the Ministry of Finance, Government of India.
  4. Member (Agri.), Planning Commission.
  5. Chief Minister, Punjab.
  6. Chief Minister, Uttar Pradesh.
  7. Chief Minister, Himachal Pradesh.
  8. Minister of Agriculture, Assam.
  9. Minister of Agriculture, Bihar.
  10. Minister of Agriculture & Animal Husbandry, Madras.
  11. Minister of Agriculture, Maharashtra.
  12. Minister of Agriculture, West Bengal.
  13. Minister of Agriculture, Jammu & Kashmir.
  - 14-18. Five Members of Parliament to be nominated by the Government of India.
  19. Special Secretary to the Government of India Department of Agriculture and Vice-President, Indian Council of Agricultural Research.
  - 20-22. Three Non-officials to be nominated by the Government of India.
- Such other persons as the Government of India may nominate.

#### *Secretary*

The Secretary, Indian Council of Agricultural Research and *ex-officio* Deputy Secretary to the Government of India, Department of Agriculture will act as Secretary of the Committee.

#### *Functions*

1. To advise Government on matters relating to the development of hill areas in the country, particularly in the agriculture and allied fields;
2. To advise Government on the pattern of financial assistance to be given for the development of hill areas in the country;
3. Development of communications between contiguous hill areas lying in different States and between the hills and plains markets so that produce from the hills can easily move to the plains;
4. Location of Agricultural Research Stations, Nurseries, Livestock Development Stations, etc. so that they can serve the hill areas in more than one State;
5. Soil conservation measures on a coordinated basis, particularly for multi-purpose river valley projects of which the catchment falls in more than one State;
6. To advise on any other matter that may be referred to the Committee by Government.

#### *Term of Membership etc.*

- (a) The term of non-official members will be three years or less as may be specified.
- (b) The term of Members of Parliament selected by Government for membership of this Committee will be three years or less as may be specified or so long as they remain Members of Lok Sabha/Rajya Sabha, whichever is earlier.
- (c) The Chairman of the Committee shall have powers to co-opt members on the Committee so as to assist in the deliberations at a particular meeting as and when considered necessary.

(d) The Chairman of the Committee shall preside at all meetings of the Committee. If the Chairman is not present at any meeting of the Committee, members of the Committee present shall elect some one from amongst themselves to be the Chairman of that meeting.

- (e) Ten members of the Committee shall form a quorum.
- (f) At least one meeting of the Committee shall be held in each calendar year.
- (g) The Chairman of the Committee shall fix the time, date and place of all meetings of the Committee.

A. D. PANDIT, Special Secy.

### MINISTRY OF TRANSPORT

(Transport Wing)

New Delhi, the 27th April 1964

### RESOLUTION

No. 6-AC(13)/63.—Under Section 9 of the Air Corporations Act, 1953 (Act No. 27 of 1953) the Indian Airlines Corporation are expected to function, as far as may be on business principles. The Corporation had inherited a large number of routes, operated with Dakotas, the continuance of which cannot be justified on commercial considerations. Even so, the Corporation have had to continue such services, particularly in the Assam, Manipur and Tripura areas where air transport is the only means of communication. Government have been considering how best the Indian Airlines Corporation could be encouraged to extend their operations to areas, where it is desirable in the public interest to provide facilities for air travel which would not be justified on purely commercial considerations. Government have come to the conclusion that this objective could be achieved by constituting a special fund from which subventions could be paid to the Corporation from time to time for operating services, which the Corporation would not otherwise undertake on purely commercial considerations, but which Government may consider necessary in the interests of tourist promotion, to meet the regional requirements of a particular area, or for other considerations which may not justify a directive under Section 34 of the Air Corporations Act. It has accordingly

been decided that a Fund called "The Civil Aviation Development Fund" shall be constituted with effect from 1-4-1964 with an initial grant of Rupees One Crore. Further payments to the Fund would be made as required, the total payments in any financial year being limited to a sum equal to the Union excise duty collected on the aviation fuel and oil, consumed in the operation of internal services of the Corporation during the previous financial year. The sum will be provided by the Ministry of Transport in their Budget Estimates each year and after being voted by Parliament, credited to the Fund. The amount not expended out of the Fund in any particular year, will not lapse.

2. Payments out of the Fund will be made under sanctions issued by the Ministry of Transport and will be subject to a separate vote under the grants of the Civil Aviation Department in the Budget. The Ministry will be advised by a Committee consisting of the Secretary to Government in the Ministry of Transport as Chairman, the Financial Adviser of the Ministry of Transport and such other members as Government may decide from time to time, as to the routes, referred to above, which the Government may require the Corporation to operate on payment of a subvention. Payments out of the Fund may also be made for the construction of airstrips and provision of ancillary facilities for the operation of services referred to above, which could not be fitted into the general programme of the Civil Aviation Department.

#### ORDER

ORDERED that a copy of the Resolution be communicated to the Ministry of Finance (T&P Dn.), Ministry of Industry, General Manager, Indian Airlines Corporation/Air-India, Director General of Civil Aviation, Director General (Tourism), Comptroller and Auditor General of India and also that the Resolution be published in the Gazette of India.

### संक्षेप

मं० ६-सी० ए०/१३-६३—एयर कारपोरेशन अधिनियम, 1953 (1953 का अधिनियम मं० 27) की धारा ९ के अधीन, इंडियन एयर लाइन्स कारपोरेशन से यह आशा की जाती है कि

वह जहां तक हो सकेगा कारबार के मिलात्मों के अनुकूल काय करेगा। कारपोरेशन को बहुत से ऐसे वायुमार्ग विरासत में मिले जिन पर डेकोटा चलते थे। इनको चालू रखना वाणिज्यिक दृष्टि से उचित नहीं ठहराया जा सकता। फिर भी, कारपोरेशन को विशेषकर आमाम, मणीपुर और त्रिपुरा श्रेणी में जहां संचार का केवल मात्र साधन वायु परिवहन है, ये सेवाएं जारी रखनी पड़ी। मरकार इस बात पर विचार करती रही है कि सबसे अच्छा सरीका कौन सा होगा, जिससे इंडियन एयर लाइन्स कारपोरेशन को इस बात के लिये प्रोत्साहित किया जाए कि वह अपनी सेवाएं ऐसे क्षेत्रों पर विस्तारित करे जहां वायुमार्ग से यात्रा मुविधाओं की व्यवस्था करना लोक हित में बांलनीय है हालांकि केवल मात्र वाणिज्यिक दृष्टिकोण से उचित नहीं ठहराया जा सकता। सरकार अब इस निष्कर्ष पर पहुंची है कि इस उद्देश्य को पूरा करने का उपाय यह होगा कि एक विशेष निधि की स्थापना की जाए जिसमें से समय-समय पर कारपोरेशन को आर्थिक सहायता ऐसी सेवाएं चलाने के लिए दी जा सकें जिन्हें कारपोरेशन, केवल मात्र वाणिज्यिक दृष्टि से अन्यथा न चलाता किन्तु जिन्हें सरकार पर्यटन विकास के हित में, क्षेत्र-विशेष की प्रादेशिक आवश्यकताओं की पूर्ति के लिए या ऐसी अन्य बातों के लिए आवश्यक समझती है जिनके लिए कि एयर कारपोरेशन अधिनियम की धारा 34 के अधीन निदेश न्यायसंगत न हो। तदनुसार यह विनिश्चित किया गया है कि “सिविल उड़ान विकास निधि” कहलाने वाली एक निधि एक करोड़ रुपये के प्रारम्भिक अनुवान से 1-4-1964 से गठित की जाएगी। निधि में अपर दैनियां जब ज़रूरत हो तब की जायेगी। किसी विशेष वर्ष में कुल दैनियां उस राशि तक सीमित होंगी जो उससे पहले के विस्तीर्ण वर्ष के दौरान निगम की अन्तर्वेशीय सेवाओं के चालन में प्रयुक्त उड़ान-ईंधन और तेल पर संग्रहीत संधि उत्पादन गुलक के बराबर हो। इस राशि का उपबन्ध परिवहन मंत्रालय द्वारा हर वर्ष अपने बजट प्राक्कलनों में किया जायेगा और संसद् द्वारा भल द्वारा स्वीकृत हो जाने पर निधि में जमा किया जायेगा। किसी विशेष वर्ष में निधि से खर्च न की गयी रकम व्युपगत नहीं होगी।

2. निधि में से दैनियां परिवहन मंत्रालय द्वारा दी गयी मंजूरियों के अधीन की जायेंगी और बजट में सिविल उड़ान विकास की मार्गों के अधीन उन पर प्रथक मत लिये जायेंगे। उत्परोक्त वायु मार्गों में से जिन पर सरकार आर्थिक सहायता देकर सेवाएं चलाते की अपेक्षा कारपोरेशन से करे उनकी बाबत मंत्रालय को एक समिति द्वारा सलाह दी जाएगी जो अध्यक्ष के रूप में परिवहन मंत्रालय के सचिव, परिवहन मंत्रालय के वित्तीय सलाहकार और इनमें अन्य मदस्यों से मिलकर गठित होगी जिनमें सरकार समय-समय पर विनिश्चित करे। निधि में से दैनियां, उपरोक्त सेवाओं के चालन के लिए हवाई पट्टियों के संनिमण और मन्बद्ध मुविधाओं की व्यवस्था के लिए भी की जा सकेगी जो कि सिविल उड़ान विकास के सामान्य कार्यक्रम में सम्मिलित नहीं की जा सकी।
